RhineGene logomark is designed with thinking of **Rhine River** as it marches through the countries with its curvy and smooth structure. Besides that, it also has a resemblance with the letter “**R**”.

The logomark and the type can be used alone to create patterns and lines but it can not represent the company as a logo.

RhineGene logotype is created using Bold weight of Gotham font family. The word “**GENE**” is brought over “**RHINE**” to create depth in the logo concept.

The logo consists of the words "RHINE" and "GENE" in a bold, black, sans-serif font. The word "GENE" is positioned to the right of "RHINE" and is partially overlaid by it. A thick, orange, wavy line starts under the "R" of "RHINE", curves under the "G" of "GENE", and then extends to the right, ending under the "E" of "GENE".

The logo is formed by the use of the mark and the RHINEGENE name together. The correct use of the logo with the main colors is as on this page.

RHINE
GENE

The logo consists of the word "RHINE" in a bold, dark grey, sans-serif font on the top line, and the word "GENE" in the same font on the bottom line. A thick, orange, brush-stroke-like swoosh starts under the "R" and "H" of "RHINE", curves downwards and to the right, and then extends horizontally under the "G" and "E" of "GENE".
